

Business Finance: A Theory

Hasan Zaman
Independent Researcher

The term "finance" is usually divided into three categories: Tax systems, government spending, budget procedures, stabilization policies and tools, debt challenges, and other government concerns are all covered by public finance. Corporate finance is the management of a company's assets, liabilities, revenues, and debts. Personal finance refers to all of an individual's or household's financial decisions and actions, such as budgeting, insurance, mortgage planning, savings, and retirement planning.
